

MASON PEG

Mason peg that really holds tight

Important notices:

- When performing the installation, it is necessary to observe all the principles of work safety, especially the use of protective equipment / goggles, gloves, helmet ... / compliance of OHS when working at heights, etc.
- The mason peg must only be used for the purpose for which it was designed and only in accordance with the instructions for use.

Instructions:

- The installation of a mason peg consists in drilling a hole for the anchoring screw.
- Use this anchoring screw to fix the body of the anchor to the wall.
- Insert the lath and align it.
- Tighten the anchoring screw.
- In case of need for further adjustment of the lath, loosen the screw slightly, adjust the lath and tighten it again.

Maintenance instructions:

- Immediately after finishing the work with the mason peg, wipe or remove any residual impurities from it.
- Then preserve the mason peg gently with oil.
